

## $\mathsf{UH}^\mathsf{TM}$

## **Novibra®** type UH™

Mounting type UH™ is particularly suitable for the suspension of both mobile and static cabs as well as platforms on agricultural vehicles.

Effectively isolating vibration and noise, the UH™ mounting also protects tanks and ancillary equipment against metal fatigue caused by chassis distortion.

Specific applications can be found on:

- **Tractors**
- Excavators
- Compactors
- Lifting cranes
- Forklift trucks
- Forestry vehicles

- Street sweepers Combine harvester
- Off-road equipment
- Construction vehicles
- Wheel-mounted loaders

## **Features**

UH is an anti-vibration mounting designed to accommodate axial static and shock loads in both directions. The dynamic natural frequency is constant irrespective of the static load.

When fitted with overload/rebound washers, a high strength fail-safe installation is provided.

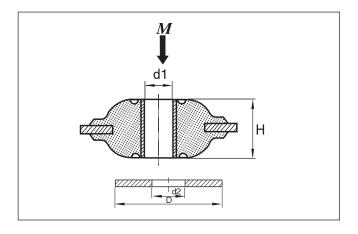

Moreover, it is possible to alter the characteristics of the mounting by providing a dome-shaped washer at the upper rubber section. This will provide impact resistance to deflection beyond the permissible limit.

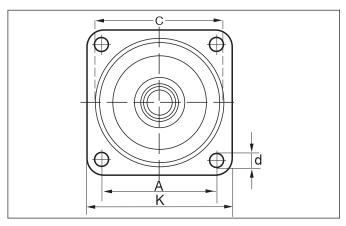

Installation reduces build tolerances.

UH is available in 2 standard versions allowing different maximum loads i.e. type UH 50 to a load of 250 kg and type UH 70 to 400 kg per mounting.

Note: Maximum tightening torque of bolts:

- ▼ UH 50 80 Nm
- UH 70 120 Nm

Туре	Drawing no.	Part no.	Dimensions in mm						M-Max	Weight
			K	A	Н	С	d	d1	(Kg)	(Kg)
UH 50	15-4131	10-00086	100,5	80,4	37	91	10,5	15	250	0,41
UH 70	15-4132	10-00088	100,5	0,4	37	91	10,5	17	400	0,41
			d2	D	t					
UH Washer	N/A	20-00608	17	75	6					

Note: The natural frequencies and degrees of isolation are based on dynamic characteristics of the mountings.
